

Please find attached some details to our well pump as requested.
 As mentioned earlier I have bought this pump from an electronic shop in Germany.
 I have not been able to find a retailer for this pump in the UK yet unfortunately.
 However, this pump was originally designed to work in caravans, etc. as freshwater pump.

There are 3 different types from this manufacturer available:

Best.-Nr.	Abb.	max. Förder- menge	max. Förder- höhe	Strom- aufnahme	Gewicht	Abm. Ø x H
53 90 74-FH	A	18 l/min	10 m	2,1 - 2,9 A	260 g	64 x 100 mm
53 90 82-FH	B	12 l/min	6 m	1,5 - 2,0 A	140 g	48 x 85 mm
53 90 90-FH	C	10 l/min	6 m	0,9 - 1,7 A	145 g	38 x 80 mm

I have chosen the most compact one (called type 04 → C) due to its good performance in comparison to its power consumption.

The prices are as follows:

- Pump A – 19.49€ / around £15.50
- Pump B – 12.39€ / around £9.90
- Pump C – 13.39€ / around £10.70
